

Customized Thickness Container Packaging Scaffolding Plank with Customized Width

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BT02

Product Specification

- Length: Customized
- Thickness: Customized
- Packaging: Container
- Color: Steel
- Surface: Pre-galvanized/hot Dip Galvanized
- Design: Standard
- Material: Steel
- Structure: Solid
- Highlight: **Steel Scaffolding Plank,
Customized Scaffolding Plank**

Product Description

Product Description:

Scaffolding Plank is a kind of supporting board for scaffolding, which is made of solid structure and customized weight. It has smooth edge and is packaged in container. It is widely used for scaffolding and other purposes. Its solid structure makes it durable and reliable to be used in various situations. Its customized weight makes it easy to transport and carry, and its smooth edge makes it save and comfortable to be used. The packaging in container ensures the safety of the product. Scaffolding Plank is a great choice for scaffolding, and it is also suitable for other purposes such as construction, decoration, etc. It is a reliable, safe and comfortable product that can provide great convenience and support.

Features:

Product Name: Scaffolding Plank
Usage: Scaffolding
Width: Customized
Weight: Customized
Color: Steel
Structure: Solid
Material: Steel
Keywords: Steel Plank, Metal Plank, Metal Plank for Scaffolding

Technical Parameters:

Attributes	Values
Color	Steel
Packaging	Container
Length	Customized
Design	Standard
Weight	Customized
Surface	Pre-galvanized/hot Dip Galvanized
