Product Description

Product Description:

Scaffolding Plank is a metal plank designed for construction and scaffolding work, which is made of high-quality steel and has smooth edges. It is available in a standard design and customizable weight and length to meet different needs. With its robust and durable design, it is perfect for safe and efficient scaffolding. It is a reliable and reliable metal plank for scaffolding support, making it an ideal choice for construction and scaffolding projects.

Features:

Product Name: Scaffolding Plank / Supporting Board for Scaffolding / Scaffold Supporting Plank

Width: Customized

Length: Customized

Structure: Solid

Material: Steel

Surface: Pre-galvanized/hot Dip Galvanized

Technical Parameters:

Attribute	Value
Usage	Scaffolding
Weight	Customized
Surface	Pre-galvanized/hot Dip Galvanized
Width	Customized
Packaging	Container
Thickness	Customized
Material	Steel
Length	Customized
Edge	Smooth
Color	Steel
Product Name	Scaffold Supporting Plank, metal plank, metal plank for scaffolding

Applications:

Bythai BT02 Steel Scaffold Supporting Plank – Reliable and Durable Metal Plank for Professional Scaffolding

The Bythai BT02 Steel Scaffold Supporting Plank is an essential piece of scaffolding equipment, offering reliability and durability. This metal plank is designed to support the weight of workers and materials, while also providing a safe and secure base for scaffolding. The plank is made of solid steel, providing a strong and stable foundation. The steel is coated with a protective layer, ensuring the plank is resistant to corrosion and weathering. The Bythai BT02 Steel Scaffold Supporting Plank is customized in terms of size, weight, color and structure to suit any working environment. Its steel design is both sturdy and versatile, allowing the plank to be used in a variety of applications. The Bythai BT02 Steel Scaffold Supporting Plank is the perfect choice for professional scaffolding, providing safety and reliability.

Customization:

Customized Scaffold Supporting Plank from Bythai

Brand Name: Bythai

Model Number: BT02

Place of Origin: China

Surface: Pre-galvanized/hot Dip Galvanized

Design: Standard

Material: Steel

Packaging: Container

Structure: Solid

Bythai specializes in providing high-quality Supporting Board for Scaffolding. Our Scaffold Supporting Plank is made of solid steel, either pre-galvanized or hot dip galvanized to ensure the safety and durability of the product. Moreover, our product is designed to standard specifications to meet your requirements.
