

Silver Coupler Scaffolding Stable and Strong Construction forged double coupler

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: china tianjin
- Brand Name: scaffolding coupler
- Certification: SGS
- Model Number: BM201
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 15-25
- Payment Terms: TT/TC

Product Specification

- MOQ: 1000
- Surface Treatment: Galvanized
- Color: Silver
- Standard: EN74-1
- Application: Construction
- Feature: High Strength
- Name: Scaffolding Coupler
- Package: Container

Product Description:

Scaffolding Coupler

The Scaffolding Coupler is one of the essential manual scaffold connection tools used in the construction industry. It is manufactured by British coupler manufacturers and meets the JIS standard for couplings, ensuring high-quality and reliable performance.

Package

The Scaffolding Coupler is packaged in a container, providing convenience and protection during transportation and storage.

Minimum Order Quantity (MOQ)

The MOQ for the Scaffolding Coupler is 1000 pieces, making it suitable for both small and large scale projects.

Standard

The Scaffolding Coupler is designed and tested according to the EN74-1 standard, ensuring its compliance with safety and quality requirements.

Color

The Scaffolding Coupler comes in a sleek silver color, giving it a professional and modern look.

Feature

The Scaffolding Coupler is known for its high strength, making it a heavy-duty coupler that can withstand heavy loads and provide strong and secure connections. Its durability and reliability make it a preferred choice in the construction industry.

Key Words

Manual Scaffold Connection Tools, British Coupler Manufacturers, JIS Standard Couplings, Heavy Duty Couplers, Construction Industry

Conclusion

The Scaffolding Coupler is an essential tool for any construction project, providing a strong and reliable connection between scaffolding elements. With its high strength, compliance with international standards, and sleek design, it is a top choice for construction professionals. Choose the Scaffolding Coupler for your next project and experience its superior performance.

Scaffolding Coupler - Universal Scaffold Clamping Tools for Construction Site

Brand Name: Scaffolding Coupler

Model Number: BM201

Place of Origin: China Tianjin

Certification: SGS

Price: 4.5-8.5

Packaging Details: In Bundles

Delivery Time: 15-25 days

Payment Terms: TT/TC

Application: Construction

Feature: High Strength

Surface Treatment: Galvanized

MOQ: 1000 pieces

Standard: EN74-1

Scaffolding Coupler is a must-have tool for any construction site. As a universal scaffold clamping tool, it is designed to connect scaffolding structures securely and efficiently. It can be used with different types of scaffolding, making it a versatile and essential tool for any building project.

Our Scaffolding Coupler, model number BM201, is made with high-strength materials to ensure durability and safety. It is certified by SGS, a reputable organization known for its strict quality standards. This guarantees the reliability and quality of our product.

The price of our Scaffolding Coupler ranges from 4.5-8.5, making it an affordable option for construction companies. It comes packaged in bundles for easy transportation and storage. Our delivery time is 15-25 days, and we accept payment terms of TT/TC for convenience. The application of our Scaffolding Coupler is mainly in construction sites. It is a crucial tool for building, renovation, and maintenance projects. Its high strength and durability make it suitable for heavy-duty use in various construction tasks.

One of the key features of our Scaffolding Coupler is its easy assembly and fast installation. With just a few simple steps, it can be attached to scaffolding structures securely, saving time and effort for workers. Its JIS standard couplings ensure a tight and stable connection, providing stability and safety for the scaffolding structure.

Our Scaffolding Coupler also has a galvanized surface treatment, making it resistant to rust and corrosion. This increases its lifespan and reduces the need for frequent replacements, saving costs for construction companies in the long run.

The MOQ (minimum order quantity) for our Scaffolding Coupler is 1000 pieces. This ensures that we can meet the demands of both small and large construction projects, providing efficient and reliable clamping tools for scaffolding structures.

In conclusion, Scaffolding Coupler is an essential tool for any construction site. With its universal design, high strength, easy assembly, and fast installation, it is a reliable and cost-effective option for connecting scaffolding structures. Trust our brand, Scaffolding Coupler, for all your scaffold clamping needs.

Customization:

Scaffolding Coupler Customization Service

Brand Name: Scaffolding Coupler

Model Number: BM201

Place of Origin: China, Tianjin

Certification: SGS

Price: 4.5-8.5

Packaging Details: In bundles

Delivery Time: 15-25 days

Payment Terms: TT/TC

Package: Container

Color: Silver

Application: Construction

Surface Treatment: Galvanized

Material: Steel

Key Features: Customized JIS Standard Couplings for scaffold systems, BS EN 74 Scaffold Accessories, and Scaffold Beam Connectors to meet specific requirements and enhance safety and efficiency on construction sites.

Packing and Shipping:

Scaffolding Coupler Packaging and Shipping

The Scaffolding Coupler will be carefully packaged and shipped to ensure safe arrival at its destination. Our packaging process includes the following steps:

Each coupler will be wrapped in protective material to prevent scratching or damage during transportation.

Multiple couplers will be placed in a strong and sturdy box to prevent movement and potential breakage.

The box will be sealed with high-quality tape to ensure secure closure.

Clear labeling will be placed on the box, including product name, quantity, and handling instructions.

The package will be securely strapped and labeled for shipping.

We strive to use environmentally friendly materials in our packaging process. In addition, we offer customizable packaging options to meet the specific needs of our customers.

Our shipping methods include air, sea, and land transportation, depending on the destination and urgency of delivery. We work with reputable shipping companies to ensure timely and safe delivery of our products.

For international shipments, we adhere to all necessary customs and export regulations to ensure a smooth and efficient process. We also offer tracking options for our customers to stay updated on the status of their shipment.
