Scaffolding Ring Lock Hot Dip Galvanized For Versatile Applications

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS
- Model Number: BT206
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 10-15
- Payment Terms: TT/TC

Product Specification

- Warranty: 2 Years
- Shipping Origin: China
- Material: Q235 Steel
- Surface Treatment: Hot-dip Galvanized
- Application Scenarios: Architecture
- Product Name: Ringlock System
- Highlight: **Galvanized Scaffolding Ring Lock**, **Hot Galvanized Scaffolding Ring Lock**

Product Description

Product Description:

Safety is of utmost importance in any construction project, and the Ringlock System Scaffolding ensures just that. Its unique design incorporates a rosette connection point that securely locks in the horizontal and vertical members, providing maximum stability and preventing any potential accidents. The hot-dip galvanized surface treatment further enhances its corrosion resistance and longevity, ensuring a safe and reliable scaffolding system throughout its lifetime. Apart from being safe, the Ringlock System is also highly flexible. Its modular design allows for easy customization to fit any shape, size, or height requirements, making it suitable for use on uneven terrain and complex structures. This flexibility also allows for easy access to areas that are otherwise hard to reach, making it a preferred choice for architecture construction. The durability of the Ringlock System Scaffolding is unmatched, and it can withstand even the harshest weather conditions. Its high-strength steel construction and hot-dip galvanized finish provide excellent protection against rust, corrosion, and wear and tear. This makes it a long-lasting solution that can be used for multiple projects, providing maximum return on investment for construction companies. In conclusion, the Ringlock System Scaffolding is an efficient, multi-functional, and reliable scaffolding system that is tailor-made for architecture construction. Its ease of installation, safety, flexibility, and durability make it a top choice for construction professionals worldwide. Join the thousands of satisfied customers and experience the difference with Ringlock System Scaffolding.

Features:

Versatile Ringlock Scaffold
Cost-Effective Ring Lock System
Ringlock Scaffold Supplier
Hot-dip Galvanized Surface Treatment
Q235 Steel Material
Product Name: Ringlock System Scaffolding
Shipping origin: China
Warranty: 2 Years

Technical Parameters:

Product Name	Ringlock System Scaffolding
Material	Q235 Steel
Surface Treatment	Hot-dip Galvanized
Application Scenarios	Architecture
Warranty	2 Years
Shipping Origin	China

Key Features	Description
Scaffolding Ring Lock	Utilizes a unique ring lock system for easy and secure assembly
Versatile Ringlock Scaffold	Can be used in a variety of applications, including construction, maintenance, and repair work
Compliant Scaffolding Standards	Meets and exceeds industry standards for safety and quality
Durable	Made from high-quality Q235 steel for long-lasting performance
Easy Assembly	Requires minimal tools and expertise for quick and efficient setup
Safe	Designed with safety in mind, with sturdy and stable construction
Flexible	Can be easily adjusted and configured to fit different shapes and sizes
Cost-effective	Provides a cost-effective solution for scaffolding needs
