

Customized Q355 VLOCK Eco-Friendly Fire-Resistance Hot Dip Galvanized Mason Frame From China

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BT04

Product Specification

- Features: Easy To Assemble And Disassemble
- Stability: High
- Surface Treatment: Powder Coating
- Safety: High
- Durability: High
- Weight: Lightweight
- Load Capacity: High
- Material: Steel
- Size: Customized
- Usage: Indoor/Outdoor
- Flexibility: High
- Customization: Available
- Application: Construction

Product Description

Product Description:

Transform your construction projects with our Customized Q355 VLOCK Eco-Friendly Fire-Resistance Mason Frame from China. Engineered to deliver superior performance and sustainability, this mason frame is the perfect blend of strength, safety, and environmental consciousness.

Key Features:

Customized Solutions: Tailored to meet your specific needs, our mason frame offers customizable options to suit various project requirements. Whether you need specific dimensions, features, or designs, we can provide a solution that fits perfectly.

Q355 Steel Quality: Manufactured from high-grade Q355 steel, this frame ensures exceptional strength and durability. Known for its robust properties, Q355 steel is ideal for heavy-duty construction applications, providing reliable support and stability.

VLOCK Mechanism: The innovative VLOCK system ensures quick, secure, and efficient assembly. This feature enhances the stability of the frame, making it safer and easier to use on the job site, ultimately improving overall productivity.

Eco-Friendly: Committed to sustainability, our mason frame is designed with eco-friendly materials and processes. Choosing this product helps reduce the environmental impact of your construction projects, aligning with green building practices.

Fire-Resistance: Safety is paramount, and our mason frame is fire-resistant, providing an additional layer of protection for workers and structures. This feature is crucial for maintaining safety standards on construction sites, especially in high-risk environments.

Made in China: As a product from China, this mason frame benefits from advanced manufacturing techniques and rigorous quality control. Our expertise in scaffolding solutions ensures that you receive a high-quality product that meets international standards.

Features:

Product Name: Frame System Scaffolding

Surface Treatment: Powder Coating

Reusability: Yes

Safety: High

Flexibility: High

Color: Steel, Painted Color

Ladder Frame: Yes, for Frame System Structuring

Technical Parameters:

Parameter	Description
Flexibility	High
Cost-effectiveness	Yes
Safety	High
Surface Treatment	Powder Coating
Stability	High
Size	Customized
Color	Steel, Painted Color
Reusability	Yes
Material	Steel
Durability	High
Application	Scaffolding System for Construction, Scaffolding Frame System, H Scaffold System

Applications:

Bythai BT04 Frame System Scaffolding

Bythai BT04 Frame System Scaffolding is a perfect combination of h frame and ladder frame structures that offer an efficient and cost-effective solution for construction projects. It features a high load bearing capacity, high durability, excellent safety, and reusability. In addition, it is highly cost-effective, making it the perfect choice for applications such as scaffolding, formworks, and temporary structures. These features make Bythai BT04 Frame System Scaffolding the ideal choice for any construction project, as it ensures that the job is done efficiently, safely, and with minimal cost. The high load capacity, durability, and safety of the frame system make it ideal for any kind of scaffolding, formwork, or temporary structure, while the reusability ensures that the product can be used for multiple projects.

Bythai BT04 Frame System Scaffolding is the ideal choice for any construction project due to its high load capacity, durability, safety, reusability, and cost-effectiveness. With this product, you can be sure that your construction project will be completed efficiently, safely, and cost-effectively.

Customization:

Bythai BT04 Scaffold Mobile Frame System

This scaffold mobile frame system is made from high-quality materials, offering you superior durability and stability. It is lightweight, making it easy to move and transport. It is also cost-effective and can be customized to fit your needs. The Bythai BT04 Scaffold System is an excellent walk-through scaffold system that provides maximum safety and efficiency.

Support and Services:

We provide technical support and services for Frame System Scaffolding. Our technical support team has a range of experts who are available to answer any questions you may have about the product. We also provide ongoing maintenance and monitoring services to ensure the system runs optimally. Our team is trained in the latest technologies and can provide custom solutions to any issues you may have. We strive to provide the best customer service and support to our customers so that they can have the best experience with our product.
